

Fine-motor Screening

This screening assesses your child's [fine motor](#), [visual motor](#) and [sensorimotor development/skills](#).

[Fine motor skills](#) refer to a child's hand usage and the ability to manipulate small items with the hand, such as coloring and cutting.

[Visual motor skills](#) refer to eye-hand coordination and such tasks as pre-writing strokes or drawing.

[Sensorimotor skills](#) refer to a child's ability to attend to tasks in an age appropriate manner.
